Getting braces as an adult is very common. The Seton Hill University Center for Orthodontics estimates that 20 to 25 percent of orthodontics patients are adults. The procedure for adult braces before and after is similar to that of children, but if you're new to it, here's what you can expect when your braces finally come off.

Getting your home ready after you have been in the hospital often requires much preparation. Set up your home to make your life easier and safer when you return. Ask your doctor, nurses, or physical therapist about getting your home ready for your return. If your hospital stay is planned, prepare your home in advance.
