You'll find not only classic works that are now out of copyright, but also new books from authors who have chosen to give away digital editions. There are a few paid-for books though, and there's no way to separate the two

Chemistry Atoms First Burdge Overby

In coordination chemistry, a ligand is an ion or molecule (functional group) that binds to a central atom to form a coordination complex. The bonding with the metal generally involves formal donation of one or more of the ligand's electron pairs often through Lewis Bases. The nature of metal-ligand bonding can range from covalent to ionic. Furthermore, the metal-ligand bond order can range ...
