cause of an acute nose bleed in a dog will be either trauma or an infection in their upper respiratory tract. If your dog is accident prone or he has a lot of inflammation in his nasal passages from a chronic infection you may see some bleeding from (usually) one nostril.

What to Do if Your Dog Has a Nose Bleed

Read Free Dog Nosebleeds Manual Guide

Dogs who have snuffled up a foreign object into the nose usually sneeze violently, paw at the nose, and sometimes have a thick or bloody nasal discharge. Nosebleeds, discharge and excessive sneezing aren't normal. Take your dog to the veterinarian at the first sign of irritation of that sensitive snout.

What to do about

Read Free Dog Nosebleeds Manual Guide

canine nosebleeds - Dr. Marty Becker

If your dog has recurrent nose bleeds, put cancer on top of your list of things to look for or to, hopefully, rule out. Symptoms may include intermittent and progressively worsening nasal discharge and/or bleeding from one or both nostrils. In some cases, you can see facial deformity.
