Nikon pushed the SB-26 with the N90s when new, and the SB-25 with the N90. All Nikon flashes work with the N90, except the newest i-TTL only models like the SB-400. Feel free to use any old flashes like the SB-16, SB-22, SB-23, and SB-80DX. The SB-600, SB-800 and SB-900 are all excellent with the N90s.

After much research, chatting with various online Nikon groups and Googling, I decided to buy this Godox Ving V60iIN flash. Given the specifications, a comparable Nikon Speedlight would have cost me anywhere from \$600 and up, while the Godox was a flat \$200 (with a spare battery). Got the flash on September 7th, as promised by Pergear.
