What is a Program Management System (PMS)? Operational and Strategic Layers (see Exhibit 1) The Program Management System (PMS) for a international business initiative presented in this paper consists of two layers: The existing base of projects, the speciality teams and ongoing operations form the operational layer, where 'the work is done'. There are rollouts to countries and organizations, new functions to be implemented, interfacing systems and also ongoing tasks such as maintenance ...

### Project Management Leadership Team at PM Solutions

How Cloud Solutions Can Help PMS: Paul is a project manager in Madrid, Spain. In this article, we will explore how IT projects can benefit from cloud technologies, both in traditional and agile projects. Online project tools are widely available for usage (team spaces, office software, etc.), but IT projects can take this a step further and save time and costs—and reduce risks when the infrastructure goes cloud.
