Insurance - dummies

Preventive care is next to impossible for those without health insurance. In 2006, almost 43 million Americans had no health insurance, which translates into nearly 15 percent of the American population. This might be attributed to the fact that health care costs can be very expensive, and the cost of even the most basic care is steadily rising. Today, the amount Americans spend on health care is four times as much as the government spends on national defense.
